

Top 10 signs of cancer in dogs	ORGANIZATIONS THAT CAN HELP
<p>1. Swollen lymph nodes. Feel these glands behind the jaw or knees. Enlarged lymph glands may suggest lymphoma</p>	<p>1. Magic Bullet Fund http://www.themagicbulletfund.org/index.html</p>
<p>2. Lumps and bumps. Be on the lookout for lumps that grow rapidly, or that change in shape or texture.</p>	<p>2. Canine Cancer Awareness http://caninecancerawareness.org/</p>
<p>3. Swollen belly. Rapid belly enlargement may suggest a mass, a tumor or bleeding.</p>	<p>3. Pets In Need http://www.pet4pets.com/Helping_Pets.asp How AAHA Helps Pets In Need The AAHA Helping Pets Fund provides financial assistance when people cannot afford veterinary care for their pets. We can help in two types of cases: --When a pet owner experiences financial hardship -- When a veterinary practice acts as a Good Samaritan The Fund does not grant money directly to individuals. An AAHA-accredited veterinary practice applies for a grant on behalf of the pet in need. After a completed application is submitted, the AAHA Helping Pets Fund replies quickly with approval status — usually within 24 hours.</p>
<p>4. Chronic weight loss. This can be a sign of cancer or of other health issues.</p>	<p>4. Dog and Cat Cancer Fund 1102 Bryant St. • San Francisco, CA • 94114 415.255.7430 • 877.938.3836 http://dccfund.org/</p>
<p>5. Chronic vomiting or diarrhea. Gastrointestinal tumors can cause unexplained, frequent vomiting or diarrhea.</p>	<p>5. Morris Foundation Cancer Campaign http://www.curecaninecancer.org/</p>
<p>6. Bleeding. Blood from mouth, nose, genitals or gums, particularly in older dogs, should be investigated.</p>	<p>6. Animal Cancer Foundation http://www.acfoundation.org/</p>
<p>7. Cough. Dry, unproductive coughing in older pets can indicate lung cancer.</p>	<p>7. Pet4Pets www.pet4pets.com</p>
<p>8. Lameness. Unexplained lameness, especially in giant or large breeds, is a common sign of bone cancer.</p>	<p>8. National Canine Cancer Foundation http://www.wearethecure.org/index.html</p>
